TABLE OF CONTENTS

Introduction

Part I  Installation and Quick Start Guide

1.0 Before Starting

1.1 Decision Tree

1.2 Configure SARS Track – Overview

1.3 Perform the Integrated Server Installation
   1.3.1 Update the Database
   1.3.2 Create an Application File Share
   1.3.3 Modify the Client Installer

1.4 Perform the Stand Alone Server Installation
   1.4.1 Create a Database
   1.4.2 Create an Application File Share
   1.4.3 Modify the Client Installer

1.5 Perform a Client Workstation Installation
   1.5.1 Installation alongside SARS Anywhere
   1.5.2 Stand Alone Installation

1.6 Quick Start Guide

1.7 Open and Close SARS Track
   1.7.1 Initial Log On
   1.7.2 Close SARS Track

Part II  Setting Up a New Application

2.0 Establishing Settings for SARS Track

2.1 ID Format Maintenance
   2.1.1 How to Add a New ID Format
   2.1.2 How to Change an ID Format
   2.1.3 How to Delete an ID Format

2.2 Location Code Maintenance
   2.2.1 How to Add a New Location Code
   2.2.2 How to Change Information about a Location Code
   2.2.3 How to Delete a Location Code

2.3 Access Code Maintenance
   2.3.1 How to Add a New Access Code
   2.3.2 How to Change Information about an Access Code
   2.3.3 How to Delete an Access Code

2.4 User Name Maintenance
2.4.1 How to Add a New User Name
2.4.2 How to Change Information about a User Name
2.4.3 How to Delete a User Name

2.5 Language Maintenance
2.5.1 How to Add a Language
2.5.2 How to Change Information about a Language
2.5.3 How to Delete a Language

2.6 Reason Code Maintenance
2.6.1 How to Add a Reason Code
2.6.2 How to Change Information about a Reason Code
2.6.3 How to Delete a Reason Code

2.7 Application Maintenance
2.7.1 How to Create a New Application
2.7.2 How to Set Up a Button for Drop-In Visits
2.7.3 How to Set Up a Button for Appointments
2.7.4 How to Set Up a Button for Check-In/Out Visits
2.7.5 How to Set Up a Button for Message Only
2.7.6 How to Establish Database Settings
2.7.7 How to Establish Banner Messages and Miscellaneous Settings
2.7.8 How to Establish Labels and Messages
2.7.9 How to Copy a Language and its Labels and Messages from another Application
2.7.10 How to Delete a Language and its Labels and Messages

Part III Using SARS Track

3.0 Using the Check-In Entry Screen - Overview

3.1 How to Set up the Check-In Screen
3.1.1 How to Configure a Receipt Printer
3.1.2 How to Configure the SARS·TRAK ENTER Screen
3.1.3 How to Enable the Voice Configuration Screen (under development)
3.1.4 How to Close the Check-In Screen

3.2 How Students Use SARS Track
3.2.1 How to Check In for a Scheduled Appointment
3.2.2 How to Make a Same Day Appointment
3.2.3 How to Make a Future Appointment
3.2.4 How to Check In for a Drop-In Visit
3.2.5 How to Check In and Out for a Site Visit
3.2.6 How Tutors Use the Check In and Out Screen

3.3 Manual Data Entry - Overview

3.4 Manual Data Entry Using the Manual Entry Screen
3.4.1 How to Enter Student Activities Manually

3.5 Manual Data Entry Using the Student Maintenance Screen
3.5.1 How to Add a New Student
3.5.2 How to Set Up Blocking Options for a Student

3.6 How to View Students Correctly Checked In
Part IV Reports

4.0 Overview

4.1 How to View and Print a Report

4.2 How to Export a Report to an Alternate Format

4.3 Certified Hours Report
   4.3.1 How to Set Up the Certified Hours Report

4.4 Certified Times Report
   4.4.1 How to Set Up the Certified Times Report

4.5 Course and Reason Report
   4.5.1 How to Set Up the Course and Reason Report

4.6 Excess Lab Hours Report
   4.6.1 How to Set Up the Excess Lab Hours Report

4.7 Hours By Arrangement Report
   4.7.1 How to Set Up the Hours by Arrangement Report

4.8 Reason Code or Section Report
   4.8.1 How to Set Up the Reason Code or Section Report

4.9 Sign Up Report
   4.9.1 How to Set Up the Sign Up Report

4.10 Student Class List Report
    4.10.1 How to Set Up the Student Class List Report

4.11 Student History Report
    4.11.1 How to Set Up the Student History Report

4.12 Student Lab Hours Report
    4.12.1 How to Set Up the Student Lab Hours Report

4.13 Student Roster Report
    4.13.1 How to Set Up the Student Roster Report

4.14 Student Totals By Name Report
    4.14.1 How to Set Up the Student Totals by Name Report

4.15 Students Not Checked Out Report
    4.15.1 How to Set Up the Students Not Checked Out Report

4.16 Unduplicated Count of Students Report
    4.16.1 How to Set Up the Unduplicated Count of Students Report

4.17 Usage Report By Reason Code or Course
    4.17.1 How to Set Up the Usage Report By Reason Code or Course

4.18 Usage Report By Student
    4.18.1 How to Set Up the Usage Report By Student
4.19 Usage Report by Time of Day
   4.19.1 How to Set Up the Usage report by Time of Day

4.20 Usage Report by Visit
   4.20.1 How to Set Up the Usage Report by Visit

4.21 Usage Report for a Day
   4.21.1 How to Set Up the Usage Report for a Day

4.22 Usage Report for Applications
   4.22.1 How to Set Up the Usage Report for Applications

4.23 Usage Report for Tutors
   4.23.1 How to Set Up the Usage Report for Tutors

Part V Technical Issues

5.0 Overview

5.1 Installing SARS Track Upgrades
   5.1.1 Installing an Applications Upgrade
   5.1.2 Installing a Workstation Upgrade

5.2 Importing Classes
   5.2.1 Setting Up an Import Format
      5.2.1.1 Character-, Tab-, and Comma-Delimited Records
      5.2.1.2 Column-Delimited Records
   5.2.2 Modifying Data Formats or Values
      5.2.2.1 Field Options
      5.2.2.2 Join Properties
      5.2.2.3 Sub Layouts
      5.2.2.4 Translations
   5.2.3 Making Deletions
      5.2.3.1 Deleting an Import Format
      5.2.3.2 Deleting a Data Element from the Import Specification Screen
      5.2.3.3 Deleting a Data Element from the Join Options Screen
      5.2.3.4 Deleting a Data Element from the Record Layout Screen
      5.2.3.5 Deleting a Translation Value from the Translations Screen
   5.2.4 Importing Records to SARS Track

Part VI PC Track and PC Track Control

6.0 Overview

6.1 Installation Guide
   6.1.1 Installing PC Track on Each Workstation
   6.1.2 Installing PC Track Control

6.2 Configuration Guide
   6.2.1 Configuring PC Track
   6.2.2 Changing Configuration Settings
   6.2.3 Establishing Connectivity for PC Track Machines
   6.2.4 Testing Configuration Settings
Table of Contents

6.3 Using PC Track Control to Monitor Activity
6.4 Using PC Track – For Students
6.5 Closing PC Track – For Administrators
6.6 PC Track FAQs
